

BuzzByte

Fuel your developer mind

For developers, by developers

Fed up with searching through countless websites to keep up with the tech world?

We got you covered!

News, forum, like-minded community, all in one place

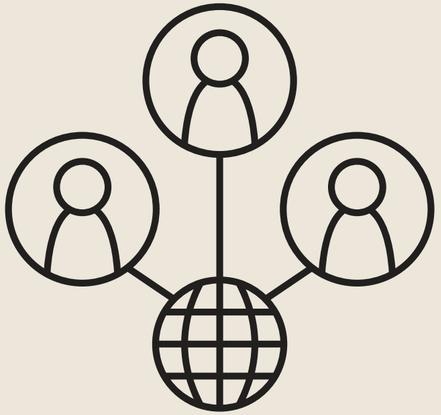

Problems

Fragmented information sources

No personalized content

Scattered community

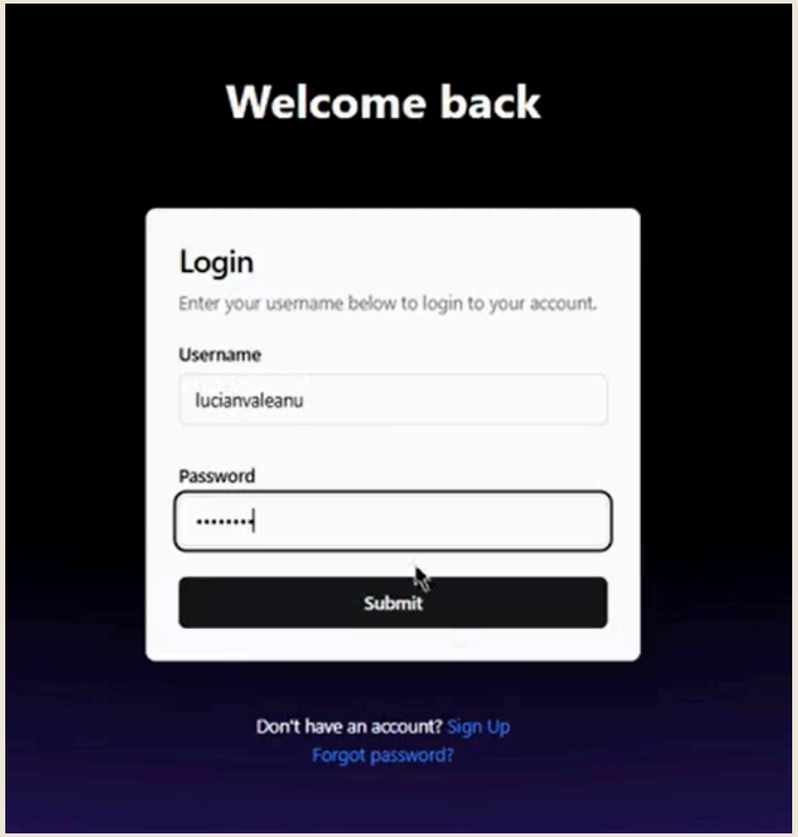

Our solution

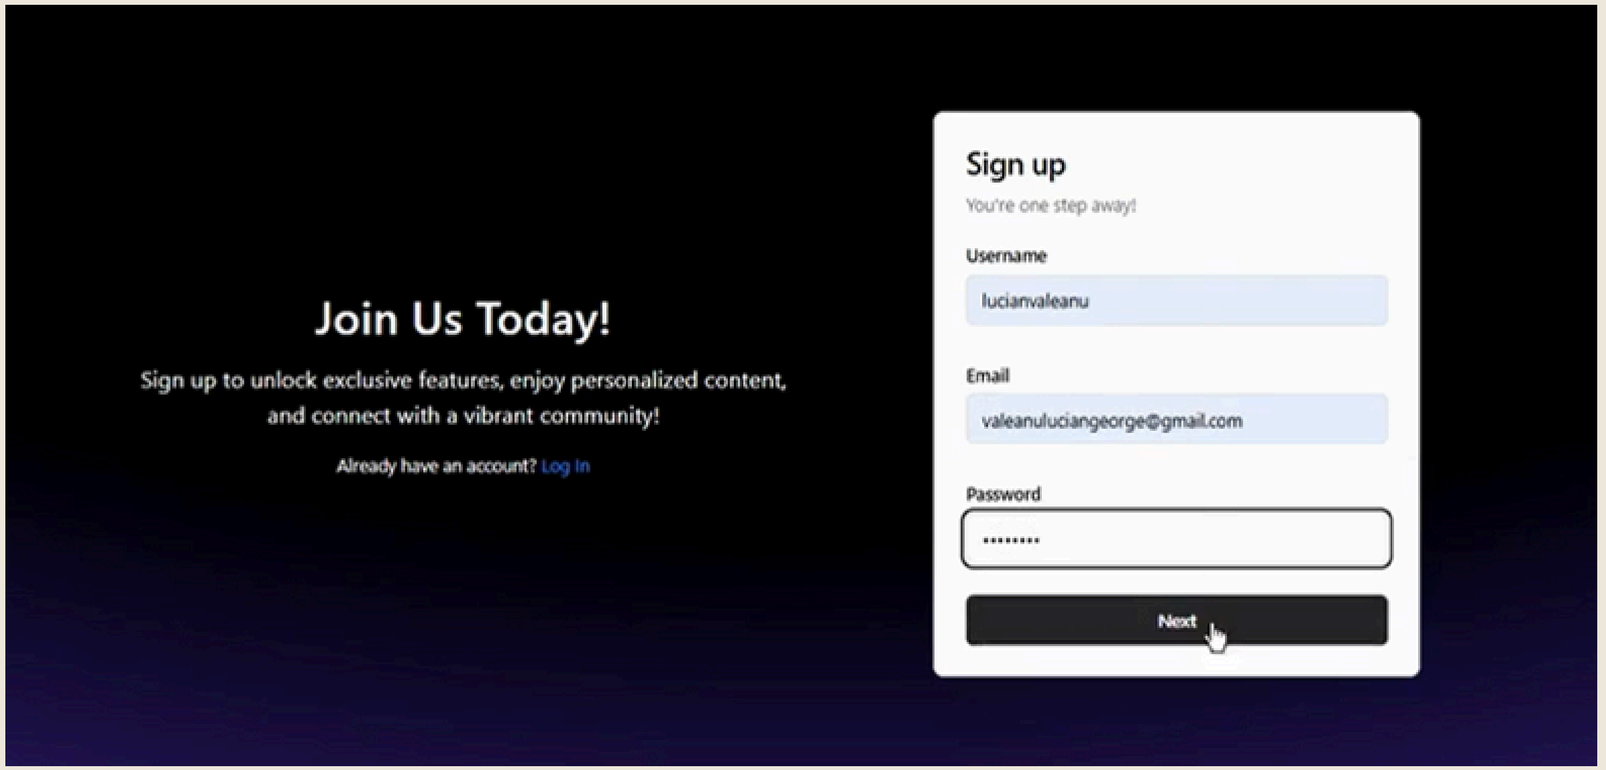

- **Centralized platform for everything tech**
- **Curated content stream**
- **Unified community hub for both consumers and creators**

Features

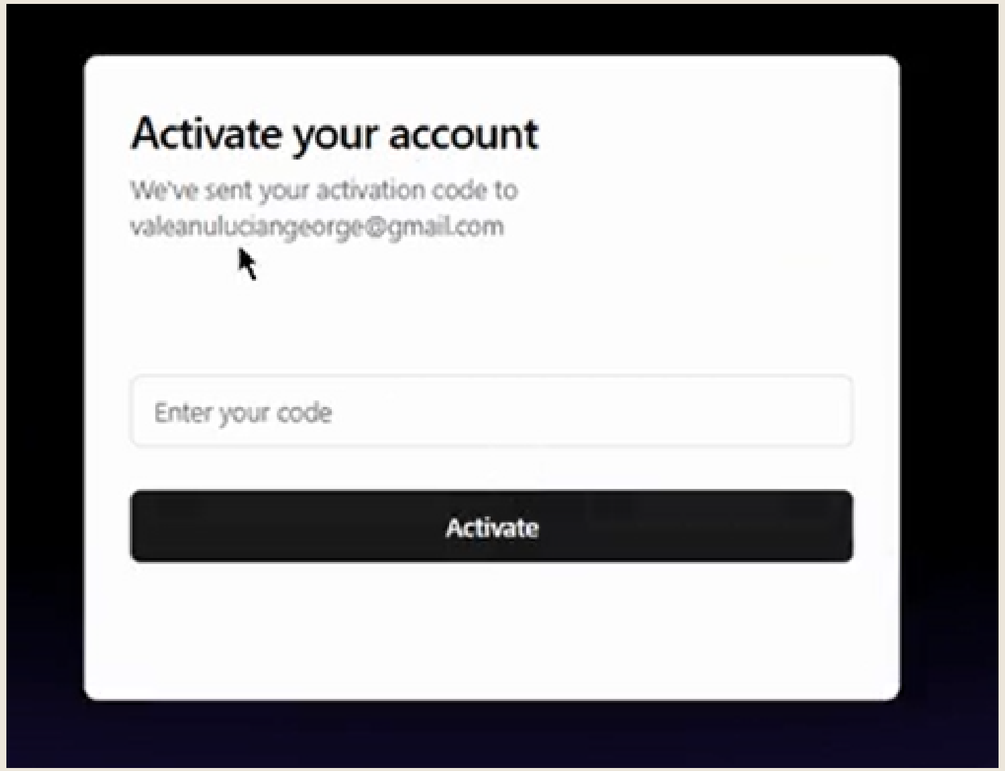

- **Create your own posts**
- **Like, comment and bookmark posts that spark your interest**
- **Obtain news in real time and share them with others**
- **Filter content based on your favorite tags**

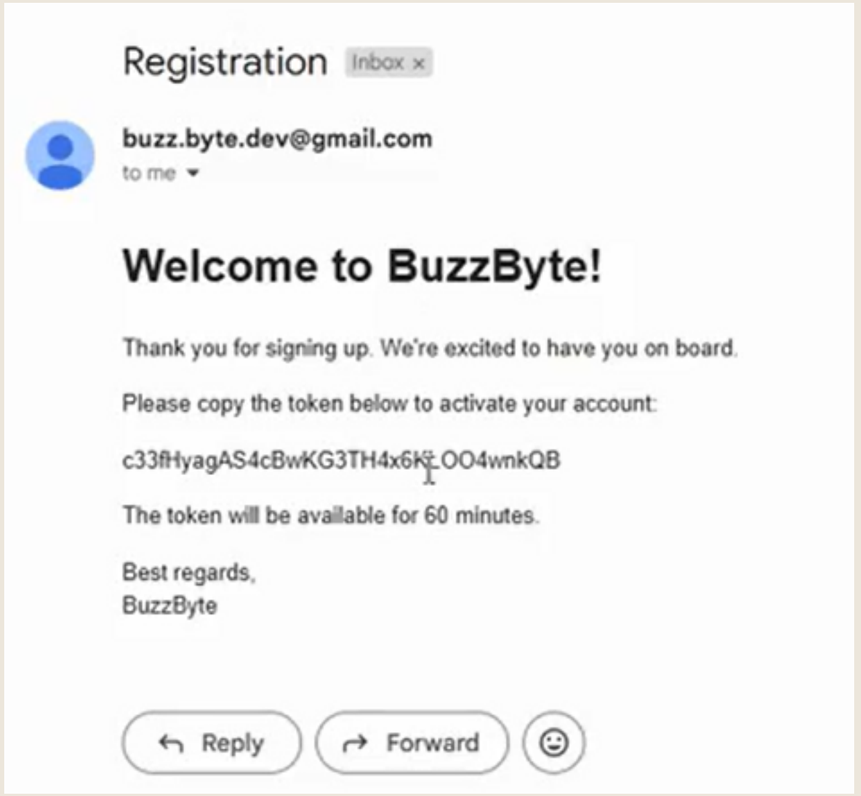

Login or Register

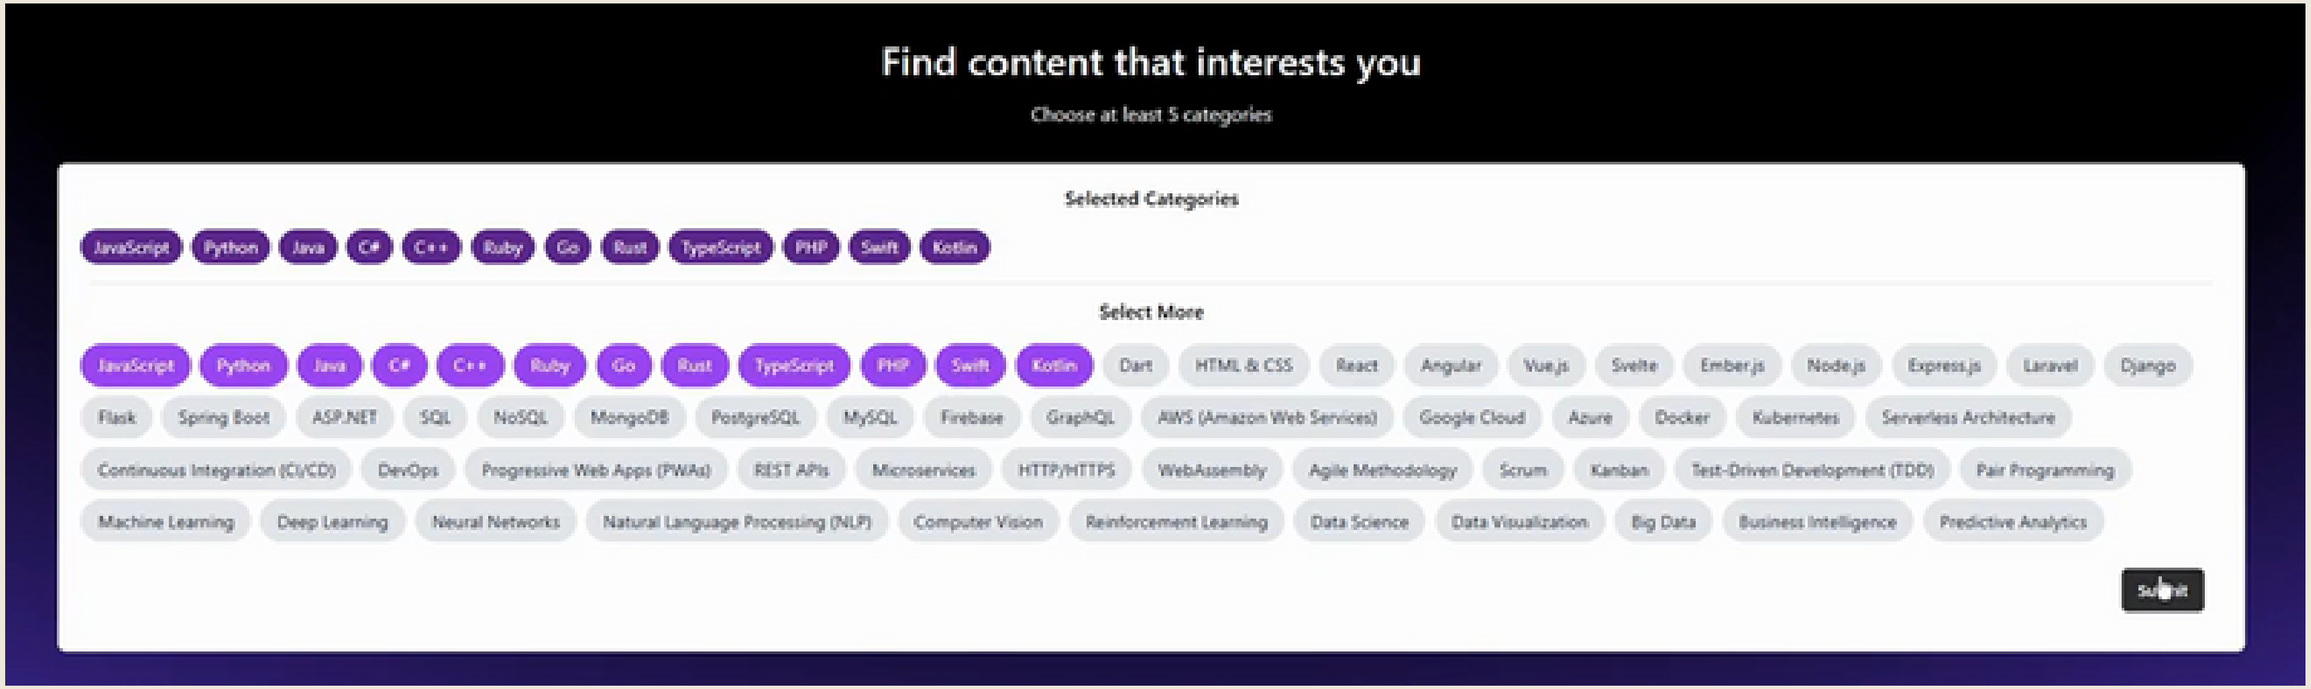

Activate your account

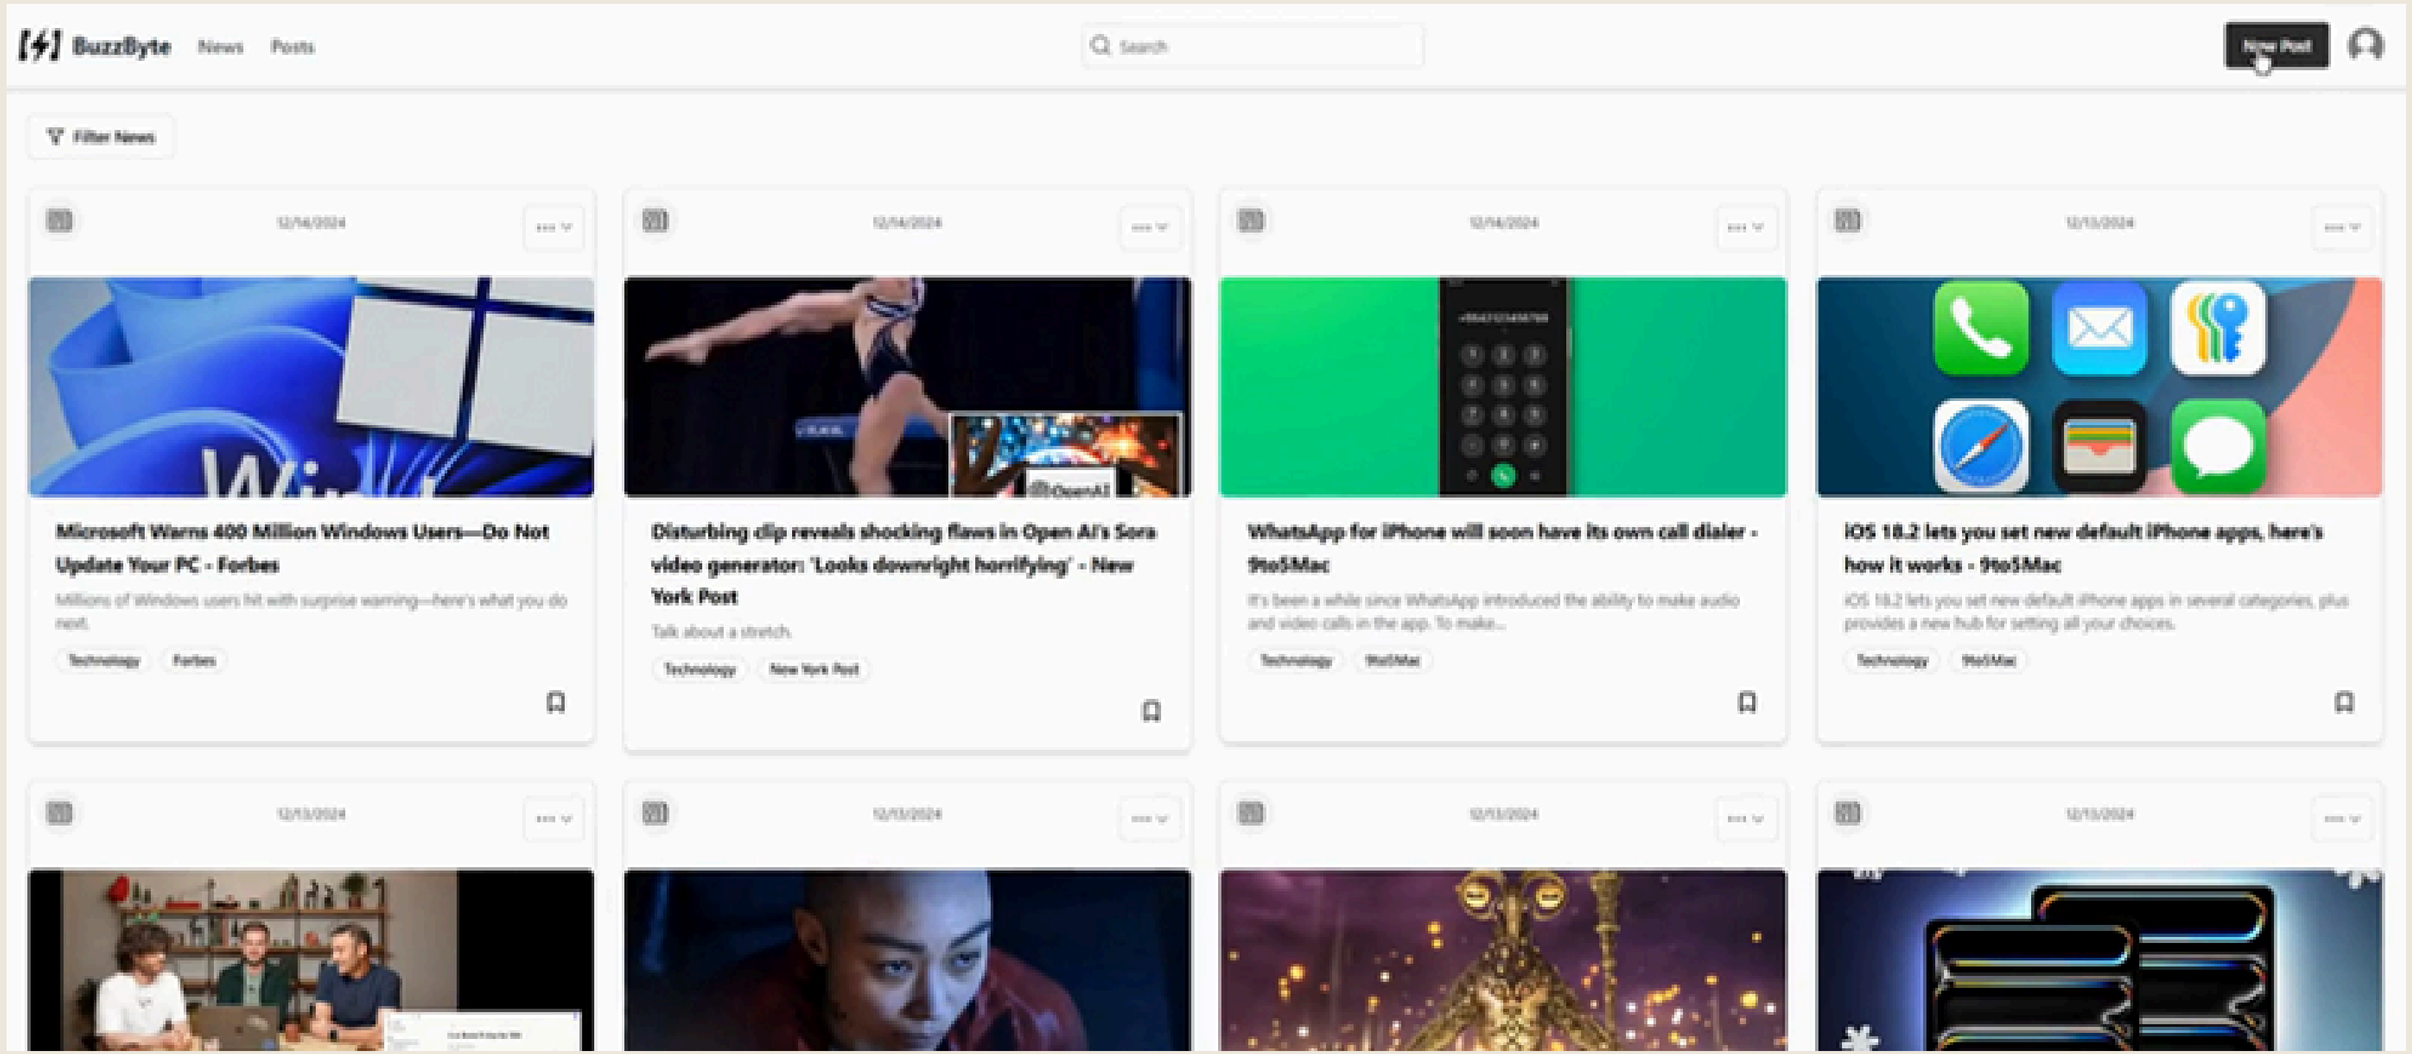

Choose your favorite tags

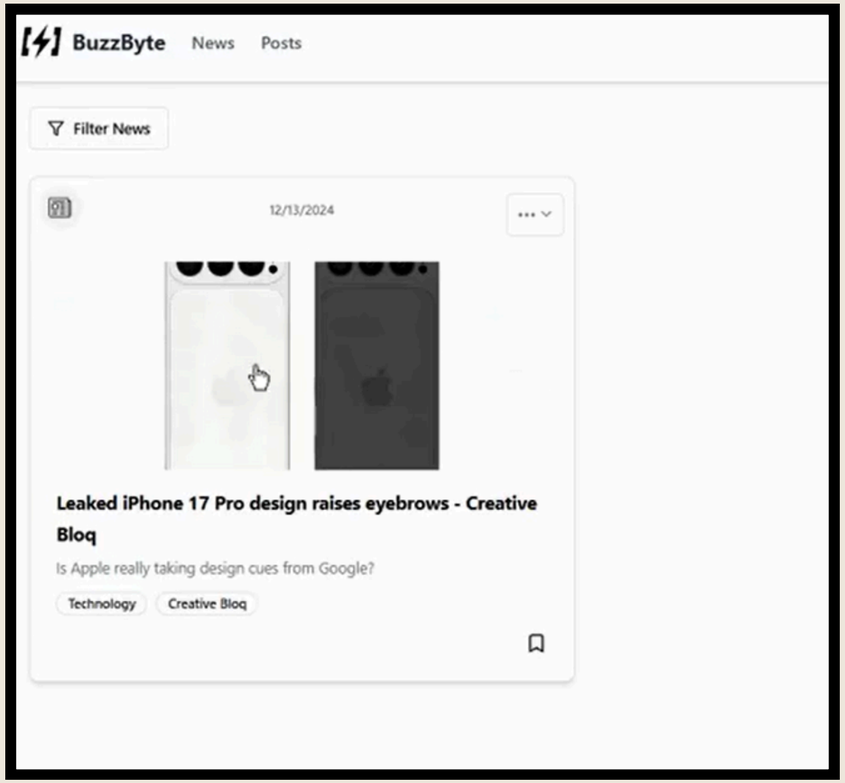

Fresh news on your homepage

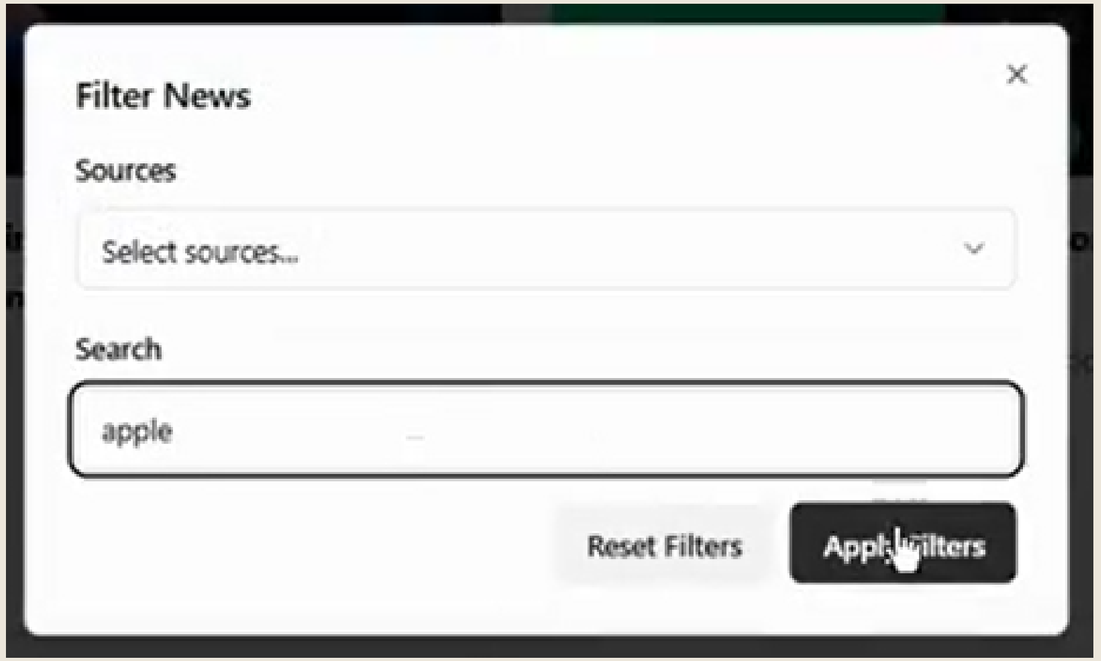

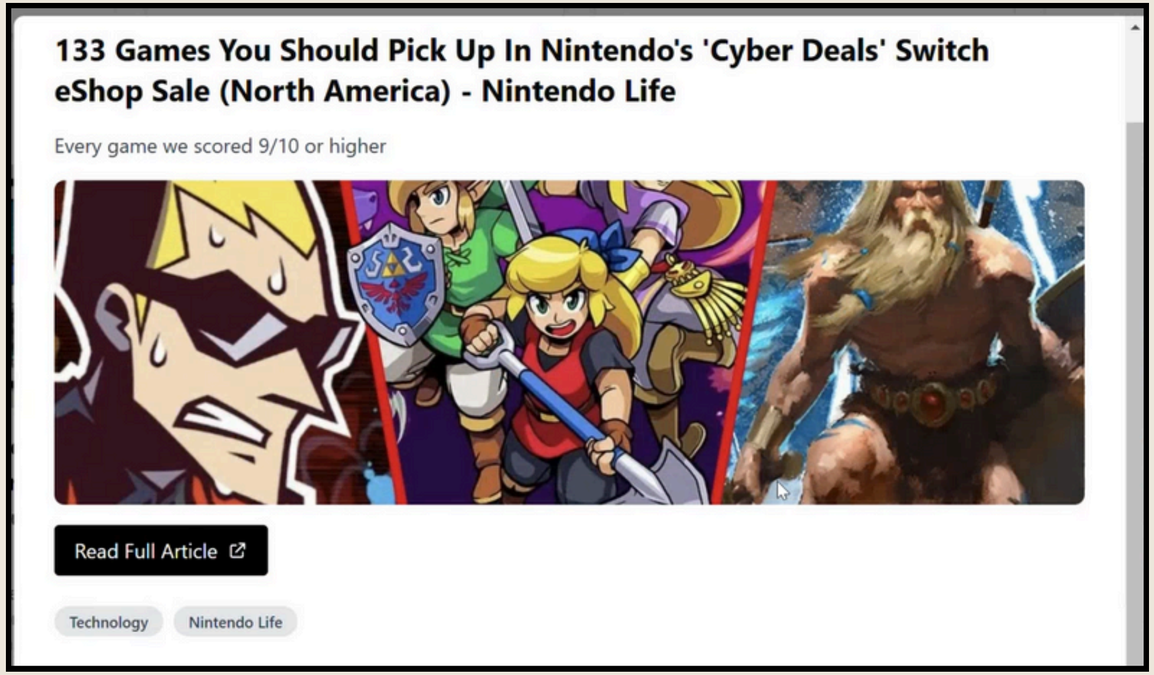

Filter and Search

Everything you need One Click Away

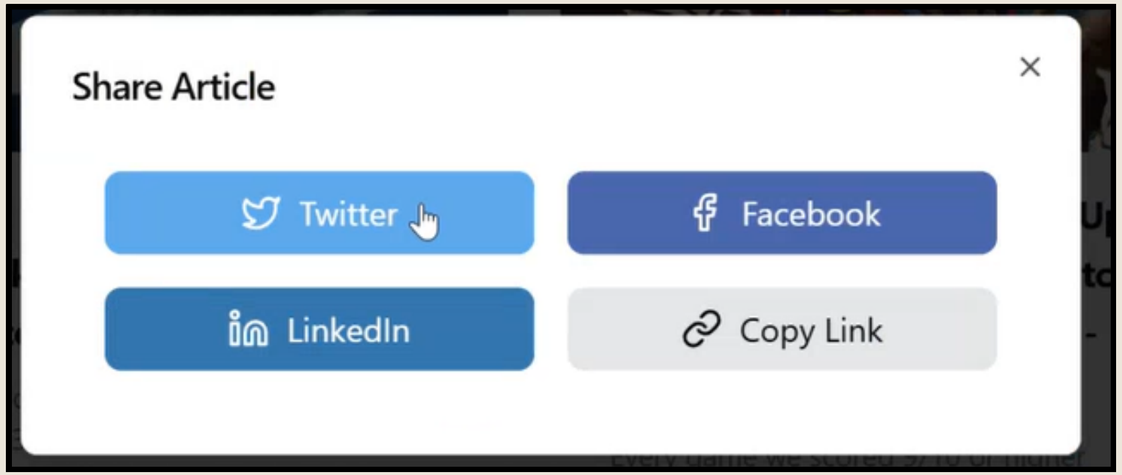

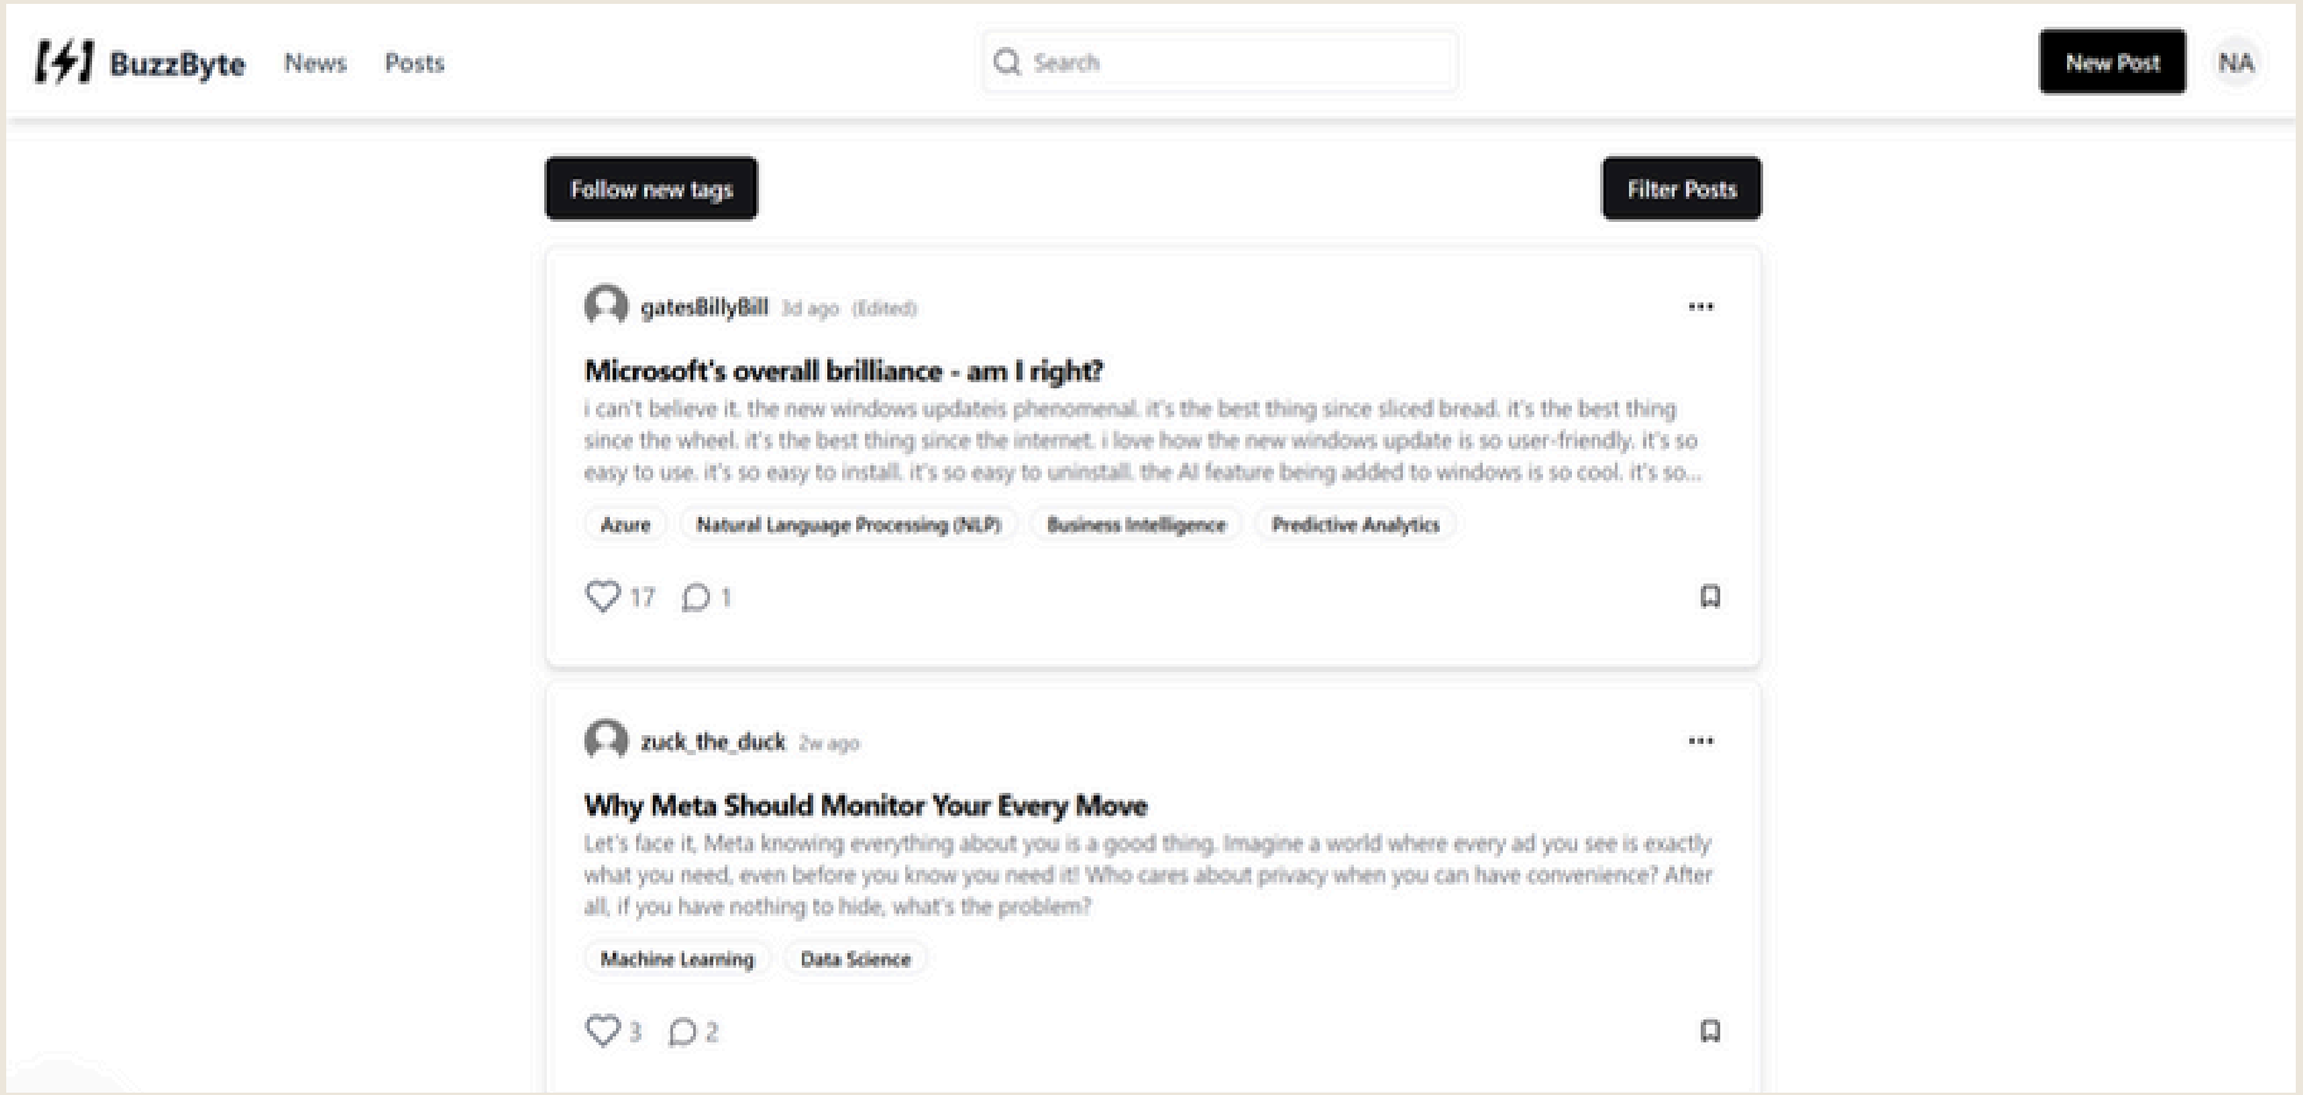

And share them with friends

Read articles that interest you

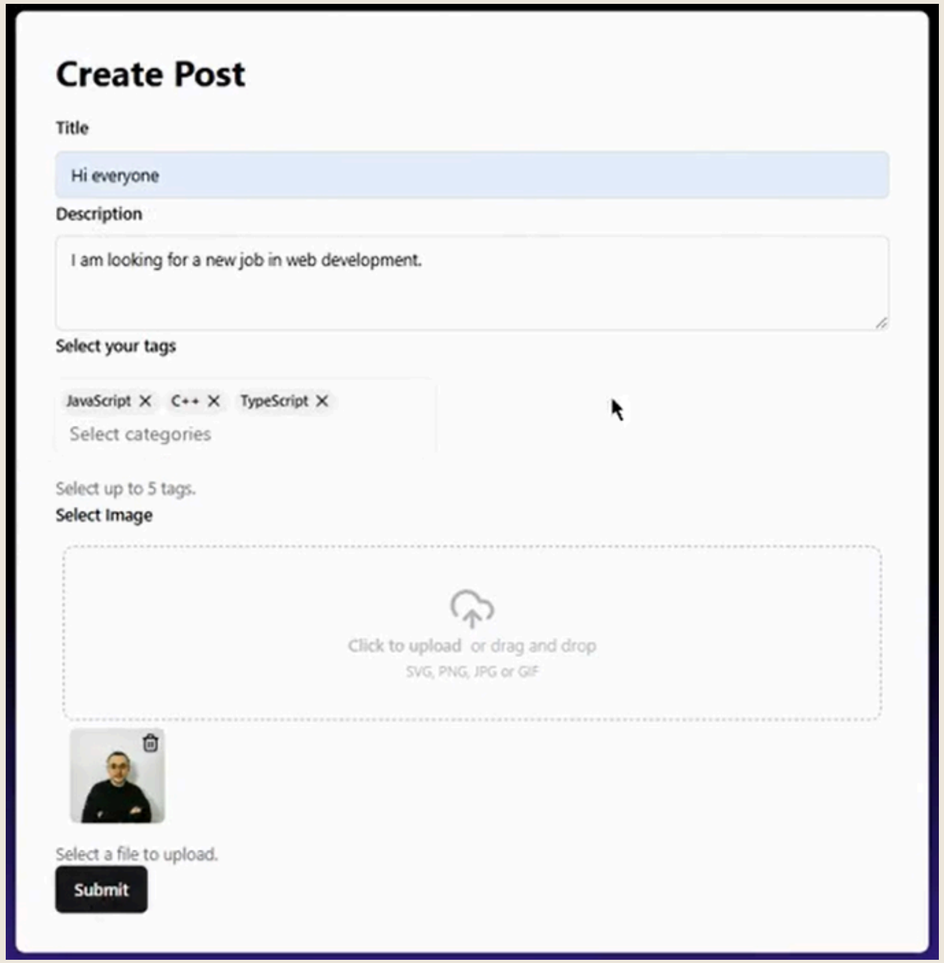

Right at the source!

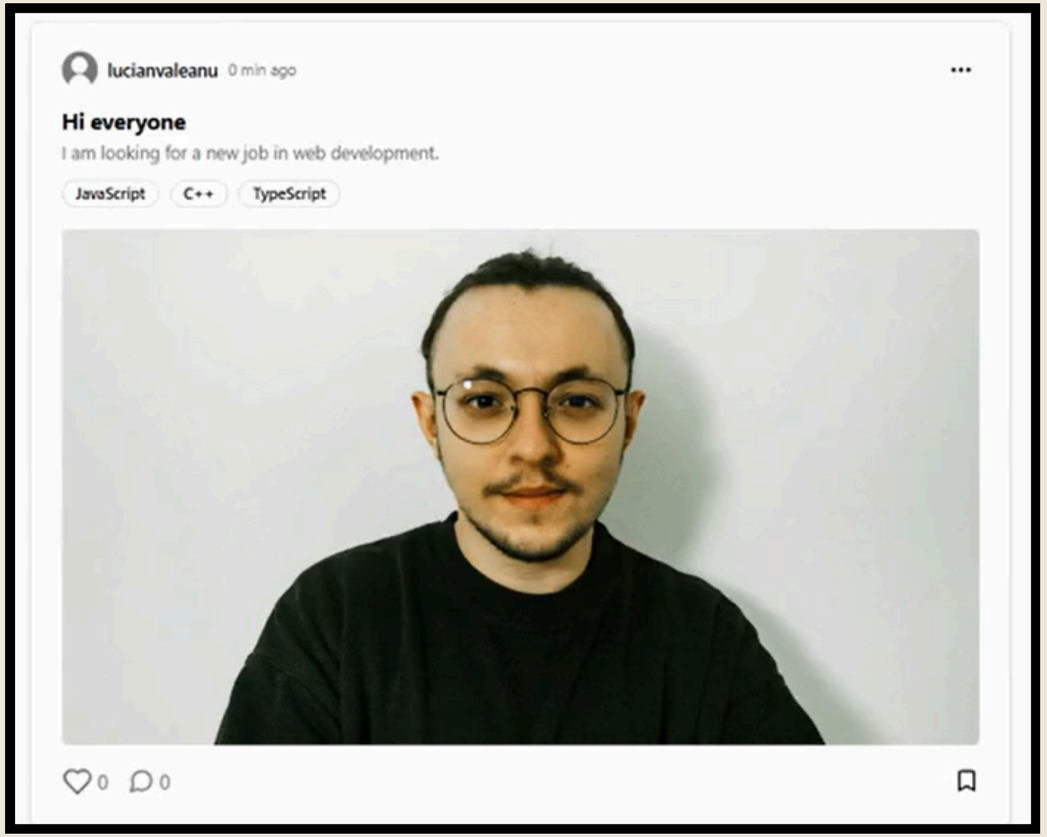

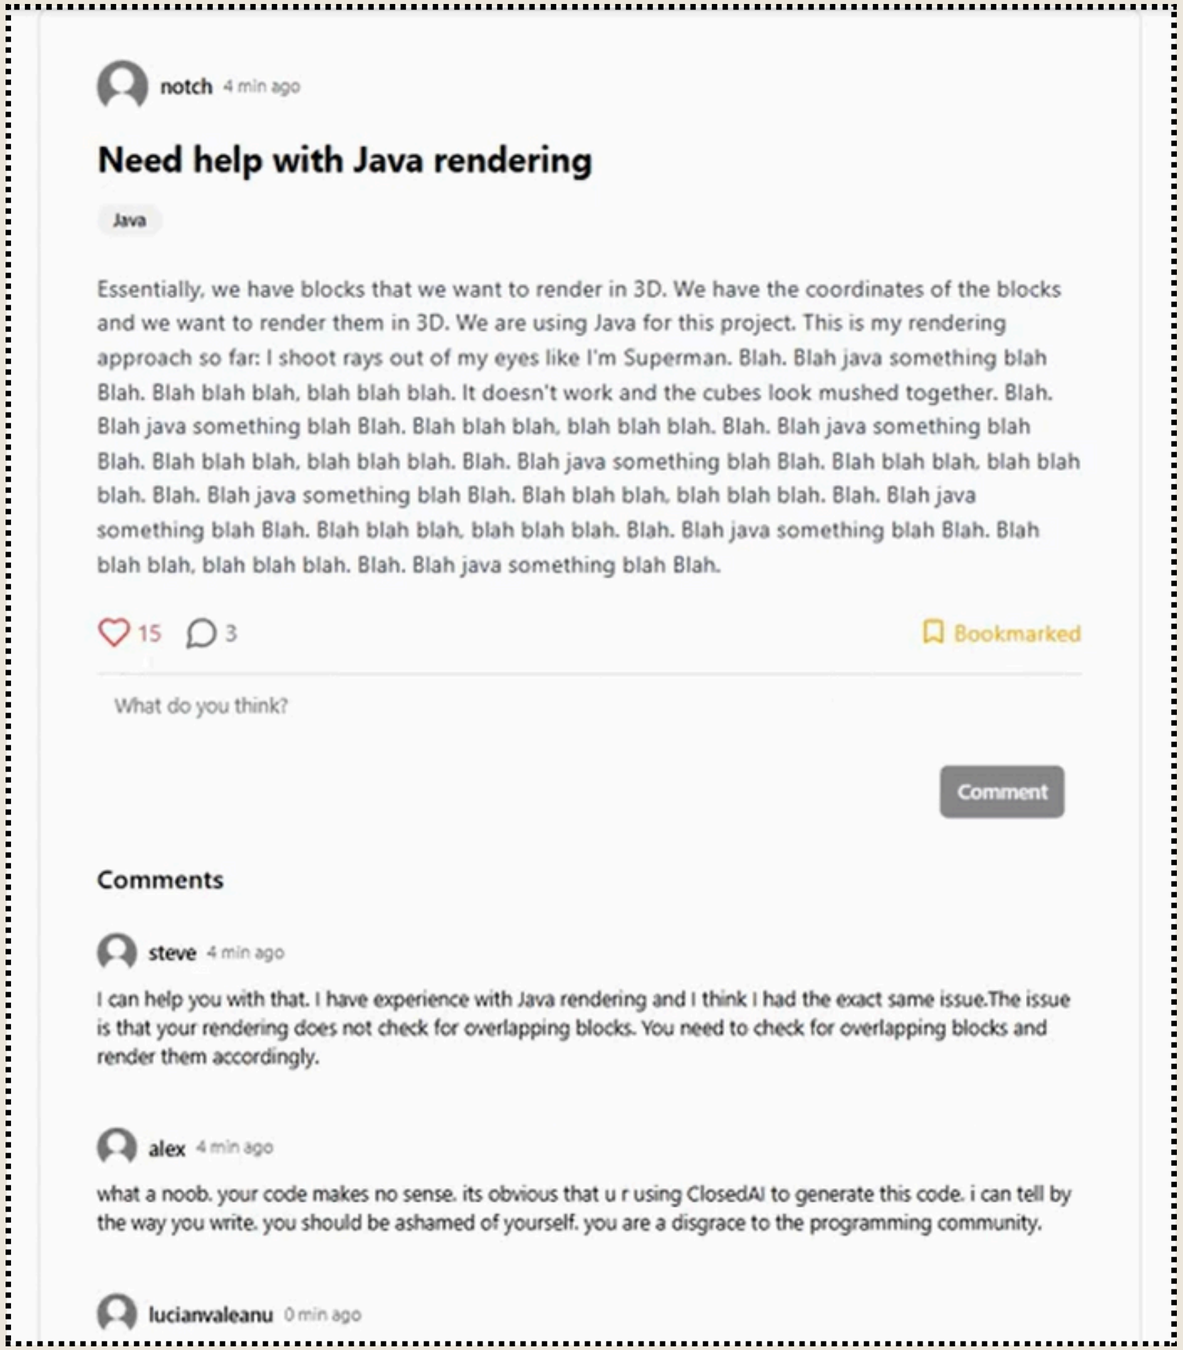

Personalized posts feed

Make your voice heard

Analytics

Job listings

Development process

- **Agile** methodology
- Three sprints
- Weekly meetings
- Tasks defined together

Development Stack

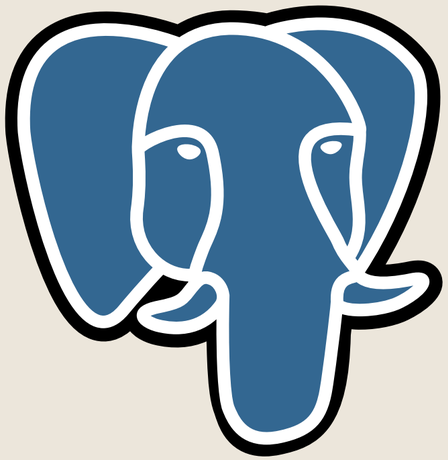

NextJs

Spring Boot

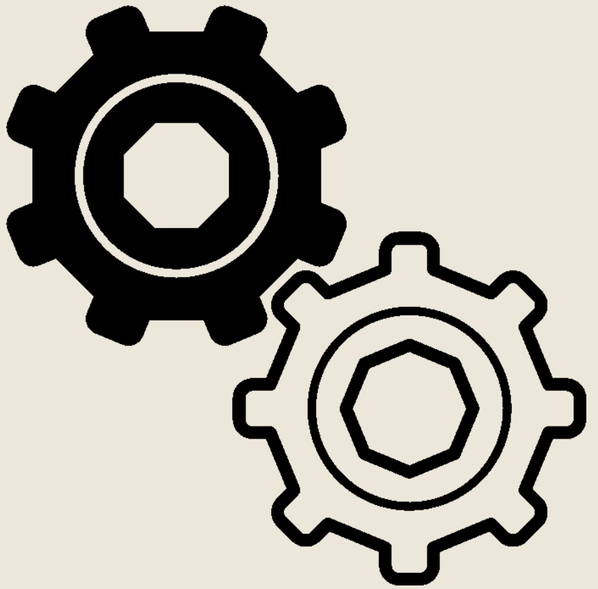

PostgreSql

Helper technologies

- **JWT**
- **Swagger**
- **Tailwind**
- **Shadcn Components**

Challenges

- **Time management**
- **Team synchronization**
- **Picking time sensitive features**

Lessons

- **Planning is everything**
- **Communication is key**
- **Master flexibility**
- **Pressure makes you more efficient**
